Alicia Herbstritt and her girl Scout troop presented to the board their proposal for a project at the Fox township community park by planting flowers in an area near the pavilion. This would be a project for earning their bronze star award. The girls gave a very good presentation that was very well received. Everyone felt this would be a great project for the park.

Jason Forester asked if little league could use the community building for a spaghetti dinner fundraiser. It was felt with the small limited kitchen area and a fairly full winter rec schedule in the building that they would be better served by looking elsewhere.

After all the visitors had an opportunity to speak the rec board held an executive workshop with the Township Supervisors in regards to numerous concerns at the park. This is an ongoing work in progress and the rec board did submit a new proposed revised fee schedule for use of facilities at the parks for the supervisors to consider.

This fee schedule for submittal was talked about in depth after the workshop by the board.
